EXPERIENCE

JPMorgan Chase & Co. March 2022 - August 2026
Vice President, Experience Designer

Drove product strategy, discovery, user research, and stakeholder alignment across digital banking, AI-powered experience concepts, cloud infrastructure, APIs, and enterprise platforms through cross-functional workshops and iterative validation.

- 2025-2026** • Directed the end-to-end experience strategy for a shared database control plane, unifying fragmented service operations across 10+ database products and enabling 40,000+ engineers to manage services through a consistent experience that reduced cognitive load and reliance on support teams.
- 2024-2025** • Defined discovery and financial product strategy for a future deposits product, establishing cross-functional relationships across product, design, and service design leadership.
• Shaped Savings Goals for the Chase First Banking modernization, supporting the migration of 1.5M accounts to an in-house platform while achieving 100% task completion and a 4.58/5 ease-of-use score.
- 2022-2024** • Managed a team of three designers and served as design lead for a five-application Branch Operations portfolio, setting design direction, overseeing 0-to-1 initiatives, and aligning experience strategy across products supporting branch employees and operations.
• Modernized the Branch Metrics Dashboard, JPMorgan Chase's regulatory and compliance platform for branch operations, cash audits, and operational reporting, reducing missed audits by 90% and increasing compliance attestation adoption to 98%.
• Redesigned enterprise KYC workflows for regulated banking operations, achieving 100% task completion, a 95/100 usability score, and eliminating seven critical usability gaps.

JPMorgan Chase & Co. Mar 2020–Mar 2022
Associate, Sr. UX Designer

- Defined product strategy and end-to-end UX for Legal Engagement, a portfolio of enterprise applications supporting litigation, outside counsel management, legal data, settlements, reserves, and regulatory operations, improving audit readiness, operational transparency, and governance.
- Designed LitHub, an enterprise litigation management platform that centralized legal matters, outside counsel, reserves, settlements, budgets, and related workflows within the broader Legal platform.
- Reduced outside counsel audit completion time by 83% by creating a 0-to-1 audit management platform that replaced fragmented SharePoint, email, phone, and document-based processes with a centralized digital workflow.
- Conducted customer research, service blueprinting, workflow analysis, usability testing, and stakeholder workshops to identify pain points and guide modernization efforts across Legal, Risk, and Compliance.

Bath & Body Works Sep 2018 – Mar 2020
Lead UX Designer

- Defined the omnichannel experience for Buy Online, Pick Up In Store (BOPIS), connecting digital shopping with in-store fulfillment as direct-channel sales grew 109% to \$2.0B.
- Delivered the Apple Pay experience across the e-commerce platform in partnership with Product and Engineering, creating a secure, frictionless mobile checkout journey.

g20 Feb 2018 – Sep 2018
UX Designer

- Designed digital banking experiences for First National Bank and KeyBank across onboarding, disputes, identity verification, and other regulated financial journeys.
